8. Independent Claim 13 is allowable because none of the prior art of record disclose an apparatus for protecting an external circuit against occurrence of an adverse electrical event in which the internal circuit includes elements adapted to pull up a voltage at one of the terminals when the voltage at the terminal drops and elements adapted to pull down the voltage at

11. Claims 26-36 are dependent on allowable Claim 25 and therefore allowable.

12. Independent Claims 41 and 42 are allowable because none of the prior art of record disclose an apparatus for protecting an external circuit against occurrence of an adverse electrical event in including an energy reservoir at a predetermined voltage, and in which the protection mechanism shunts current to the energy reservoir in combination with the other claim limitations.
